## About the 'Ethical Survey'

---

### About the Ethical Advisers Co-Op

The Ethical Advisers Co-op is a group of 35 financial advisers who are passionate about ethics and finance. The Co-op was established as a not-for-profit over 10 years ago to enable likeminded financial advisers to work together to represent the voice of the consumer. We work to shift the super and investment industry into being more ethically aligned with their clients' objectives. The Co-op's nationwide membership of ethical financial advisers help over 3,300 Australians make financial decisions and invest in line with their ethical values.

### How the Leaf-System Works

The ethical rating is voted by Australian financial advisers who specialise in ethical investments (Co-op members). The advisers assess if fund ethics suit their average ethical client, and if it matches with the average client's expectations and objectives. The advisers consider how successful the fund is at; 1) removing industries and stocks harmful to the environment and society 2) including companies with environmental or social benefits, and 3) providing evidence of actions from the fund which benefit society and/or the environment. The quality of information the fund provides on its ethical policies, companies invested in, and proxy voting is important in assessing if a fund is as ethical as claimed. The final rating is an average of these votes.

Financial advisers are voluntarily participating to help ethical consumers gain a quick understanding of how the clients of a group of industry professionals view the ethics of each fund. The Co-op and the advisers do not receive any form of remuneration or reward for participating.
